

1. The Nook roof evokes images of home and childhood memories of playhouses, creating intimacy and a sense of privacy
2. Acoustic upholstery is key to the 'Nook Effect' of calm & quietness for great concentration & better conversations.
3. Colour changeable LED Lighting enhances mood allows you to 'own' your space. Remote Control & 3D Printed Lampshade included.
4. Rear Wall. An aperture allows light and conversation in. This opening can be closed by affixing the optional Rear Wall Upper.
5. Desk level LED task lamp for detail & close-up work
6. Rear Wall Shelf. A two-dimensional work surface adds a place for phones, coffee, wallets and arms.
7. International mains & USB power & charging sockets for devices
8. Large Comfortable Working Area
9. Bench seating. Spacious for 2 people for long periods or comfy for 4 for short meetings. Storage and feet-space underneath.
10. Nook is easily moveable on lockable heavy duty castors
11. A clip-on cover conceals all wiring beneath the table.
12. The Rear Wall Lower is removable for putting Nooks together, or can be flipped 180 so the shelf (6) is on the outside.
13. A cable port at the centre rear base allows easy cable egress. This opens from the inside.
