

Work together, better

Healthy • Sustainable • Creative • Flexible

AB BC

DOMO

Domo Table's elegantly beveled edges produce an attractive interplay of light and shadows. Its wood-framed table screen is filled with sound-absorbing polyester and upholstered in fabric. A magnetic bracket can be added to the screen's facade for attaching pen holder and shelving accessories of various sizes, all specially designed for Domo Table.

STITCH

Stitch table screens combine a thick lined fabric with an embroidered check pattern to produce a sense of expressive softness to any space.

ZIGZAG

ZigZag and MixMax are folding portable acoustical screens that are tackable and create a private space quickly and easily.

MIXMAX

SPAZER

SCREENIT A30

FLOOR

ABOVE DESK

A30 Desk and Floor Screens provide a stable, stylish and practical shielding in open plan areas with an A-classed noise absorption.

A30 DESK BOOTH

Booth dividers connected with zipper.

A30 PLEXI

Available in transparent, frosted and smoked plexi.

A30 FLEXIBLE WALL

The sound absorbing screen can be used as a desk, floor and wall screen.

A30 RISING

A floor screen that you can raise and lower freely to the desired height. Ideal in a classic desktop environment when you easily and quickly want to work undisturbed and in an open landscape to change the layout of the room.

A30 REINFORCED

FOLDIT

Portable and foldable screens ideal for examinations, small workspaces and deviding large tables temporarily.

ACCESSORIES

db

A light weight, sound absorbing screening system. The intent was to provide the user a series of screens and accessories that allows the ability to configure and personalize their space in a way that is productive to the individual. Instead of legs, they stand on a base, which allows them to be angled as desired when combined with one another. The series includes a whiteboard-faced screen and a clever cork-face screen for bulletins.

MyHive

My Hive is a flexible workstation available in two different models: A spacious, rectangular workstation, and also a hexagon-shaped workstation. My Hive integrates the table-top into the sound absorbent screens. The mechanism for adjusting height is hidden behind zippers. There is a smart case under the table used to store the cables. Can be configured with a board-faced screen and a clever cork-face screen for bulletins.

Domo Wall Booth

It's sometimes difficult to know where to go when you need a quiet, private space to write or make a quick phone call. Domo Wall Booth was designed to solve this problem in busy, hectic environments. Domo sound-absorbent wall booths are ideal in environments where there is an occasional need for a quiet, isolated area.

A30 TOWER BOOTH

A30 PEAK

- Many Textile Finish Options
- Recessed Cable Grommets
- 56" High Standard
- Custom Sizes available
- Sound Absorbent
- Tower Cabinet fitted L+R

A30 4 WALL BOOTH

Floor Screens that are zipped together and form a booth with space for desk and tower cabinet. Tower Booth's can be connected and are available in four different sizes adapted to different tower cabinet.

A contemporary floor/desk screen with sound absorbing qualities. The screen contains 40mm of recycled polyester effectively absorbing sound to create a more harmonious environment. Customize Edge Floor Screens with adjustable feet, arc's or castors, 4 different fabric ranges and 7 standard rubber edging colours. The built-in magnets at each joint make the screens easy to connect and configure.

EDGE TABLE AND FLOOR SCREENS

NOMAD SCREENS

Nomad® mobile screens and table top dividers facilitate the reconfiguring of space and adapts to new ways of working where work areas may be spontaneously re-zoned. Featuring acoustical or upholstered panels that supports private work, collaborative work and conferencing, Nomad®'s mobile screens features a unique opening allowing the screens to nest into the table tops. Nomad® can support different accessories including integrated storage cabinets or TV's and white boards which are a great solution for training areas or ad-hoc meeting spaces.

LOUNGE SCREENS

- Add-Ons
- Tablets
 - Power
 - Coat Hangers
 - Storage
 - Lighting
 - Planters
- Add-ons available in oak, ash, and stained variations.

BOB JOB

BOB Job is an accessory system of acoustic screens and wood elements that can be combined with the BOB sofa modules to create work zones with a sense of private space. BOB Job modules can be individually upholstered, and fitted with optional power/USB connection.

COAST

The Coast collection offers a wide range of possibilities, limited only by your personal creativity and preferences. Add a shelf or an acoustic dividing panel to create privacy islands in shared spaces or to set up a cozy break area for staff members. Resolutely contemporary, Coast was designed with casual collaboration in mind to provide comfortable seating with rounded lines, giving it a gentler more welcoming appearance. Add some warmth to this piece with wood legs, a modern flare with the metal legs.

NOVA C + RADIUS DIVIDERS

Space dividers attached to the Green Furniture Nova C Back modular seating. Seamless, and with curvature of choice just like the seating. The Radius divider comes with cut out holes (custom patterns possible) or solid which gives a surface where a message or image can be applied.

BEATBOX

BEATBOX screens attach onto the back and/or sides to transform a seat into a private enclosure. The BEATBOX collection offers a place where individuals can collaborate or have a focused space that provides privacy while still maintaining comfort and access to connectivity.

We hope that you have enjoyed this tour of the BrasTacks 2020 Screens & Panels Collection. We believe visual and acoustic privacy solutions can be balanced with smart design and functionality. We are proud to offer a wide range of products from some of the most innovative manufacturers in contract furniture.

BrasTacks is your resource for contract furniture consultants, industrial designers, acoustics engineers, CAD technicians and customer service representatives; standing by to assist with your interiors project.
